You should say

- Who you would like to go with?
- Where you would like to go?
- When you would like to go?
- And explain why you would like to go by bicycle/motorcycle/car?

## Band 9 Model Answer to Describe a bicycle/motorcycle/car trip you would like to go on IELTS Cue Card

- As of late, two of my companions went on a cruiser outing to Leh.
- Leh is a high-elevation city situated in the northern Indian province of J&K.
- A couple of years back, a film 3 morons was shot there and from that point forward, it

has turned into a travel industry area of interest.

- My companions and I had likewise intended to go there by motorbike in 2020, but since of the lockdown, we couldn't go.
- It is about 500kms from our old neighborhood and there is no train availability to the city.
- In this way, our fundamental alternative was to one or the other pass by cruiser or to pass via vehicle.
- The fundamental justification motorbikes was that it is the most ideal approach to partake in the beautiful mountains en route.
- Likewise, here and there I feel disgusted when I travel via vehicle in high heights.
- At long last, a portion of the hilly streets are exceptionally thin and it is extremely simple to stall out in gridlocks if passing via vehicle.
- So this year, they at long last went there.
- I couldn't go along with them this year too in light of the fact that I was getting ready for the IELTS test.
- In the wake of returning, they couldn't quit discussing the outing.
- They likewise shared the photos and recordings they brought the way.
- At the point when they saw that I was feeling desirous, they revealed to me that couldn't imagine anything better than to go there again with me after the test.
- There are as yet numerous things that they needed to do yet couldn't do on account of absence of time.
- Thus, we have chosen to go there, after my outcomes are pronounced in an additional fourteen days.

### **Speaking Part 3 Follow-Up Questions to Describe a bicycle/motorcycle/car trip you would like to go on**

---

#### **1. Which type of vehicle is generally normal in your nation, bicycles, vehicle or cruiser?**

I think the two cruisers and vehicles are extremely normal. A great many people favor cruisers for going inside the city and when voyaging alone, while they incline toward vehicles when heading out to another city and when going with family.

#### **2. Do you think air contamination comes generally from portable vehicles?**

In reality, I used to feel that. However, a couple of years prior I read an article, which said that vehicles are liable for simply 10% of the contamination, and significant air contamination is because of businesses.

One more significant wellspring of contamination in my space is the consuming of yield buildup by ranchers after harvests.

**3. Do you think individuals need to change the method of transportation radically to secure the climate?**

Like I said before vehicles are answerable for a tiny piece of the air contamination. Thus, I don't think revolutionary changes are essential in our method of voyaging.

Yet, I do feel that the public authority needs to achieve a change by advancing electric vehicles and public transportation.

**4. How are transportation frameworks in country and metropolitan frameworks unique?**

I think the thickness of populace in urban communities unveils transportation like transports, trains, and metros reasonable in urban areas, while in rustic regions it is too expensive to even consider working them. In many towns, individuals chiefly rely upon their own transportation
